Tennessee Agriculture Enhancement Program (TAEP)

The Tennessee Agricultural Enhancement Program (TAEP) was established in 2005 to provide cost share dollars to agricultural producers for the purpose of making long-term investments in Tennessee farms and communities.

Participation allows producers to maximize farm profits, adapt to changing market situations, improve operation safety, increase farm efficiency, and make a positive economic impact in their communities.

More than \$224 million has been invested in 74,619 producer projects from 2005-2021.

Eligibility for TAEP can be found within each application.

There are three types:

1. Application A which includes: Genetics, Livestock Equipment, Hay Storage, Herd Health, Livestock Solutions, Dairy Solutions, Permanent Working Structures, and Row Crop Solutions.

2. Application B which includes: Agritourism, Fruit and Vegetable, Honey Bee, Horticulture, Organic, and Value-Added Products.

3. Application C for Poultry Grower Commercial Producers.

Application period is October 1-7, 2022 and are available for pickup Monday-Friday 8:00am to 4:30pm at the Extension office.

Hey, Get Your "Bulb" Over Here!

Tips for Fall Bulbs Plantings.

- Fall planting usually means September to October plantings.
- Know the light requirement for your bulbs; full sun is usually best.
- Be sure to plant the bulb at the correct depth.
- Plant in groupings for the best effect.
- Plan out your plantings, stacking bulbs plantings will allow for blooms at different times and utilizes your space wisely.
